IGO, INC. ANNOUNCES REVERSE/FORWARD STOCK SPLIT

Los Gatos, California, June 25, 2014 - iGo, Inc. (OTC PINK: IGOI) (the “Company”) announced today that the Company’s Board of Directors has approved a reverse split of the Company’s common stock, par value $0.01 per share, immediately followed by a forward stock split of the Company’s common stock, intended to reduce the costs associated with servicing stockholder accounts holding relatively small numbers of shares of the Company’s common stock. The Board of Directors determined to fix the ratio for the reverse stock split at 1-for-250 and the ratio for the forward stock split at 250-for-1. The reverse and forward stock splits are expected to be effective as of 5:00 pm and 5:01 pm, respectively, on July 17, 2014, subject to approval by the Financial Industry Regulatory Authority, Inc. ("FINRA"). The Board of Directors has retained the authority to reject (and not implement) the reverse and forward stock splits if the Board subsequently determines that the reverse and forward stock splits, for any reason including but not limited to preserving the Company’s net operating losses, are not then in the Company’s and its stockholders’ best interests. Such reasons include any change in the nature of the Company’s stockholdings prior to the effective date of reverse and forward stock splits.

The Company’s stockholders had previously approved amendments to the Company’s Certificate of Incorporation to effect the reverse and forward stock splits and authorized the Company’s Board of Directors to determine the respective reverse and forward split ratios, at the Company’s Annual Meeting of Stockholders held on May 13, 2014.

Pursuant to the reverse and forward stock splits, stockholders holding less than 250 shares of the Company’s common stock immediately prior to the effective time of reverse stock split will not receive fractional shares in the reverse stock split, but will instead have their shares cancelled and converted into the right to receive a cash payment of $3.35 per pre-reverse stock split share. Stockholders holding 250 or more shares of the Company’s common stock immediately prior to the effective time of the reverse stock split will not receive a cash payment, but will continue to hold the same number of shares after completion of the reverse/forward stock split as they held immediately prior to the reverse stock split. The Company expects both registered and beneficial stockholder accounts holding less than 250 shares of common stock will be cashed out; however, persons that beneficially hold shares through a nominee (such as a broker or bank) will be advised to contact their nominee to be informed of any procedures such holders may need to follow in order to ensure the same treatment as registered stockholders.
The Company expects that approximately 123,000 of its outstanding shares of common stock will be fractionalized as a result of the reverse stock split and subsequently cancelled and converted into the right to receive a cash payment in exchange for each pre-reverse stock split share.

For more information regarding the reverse/forward stock split, please refer to the Proxy Statement relating to the Company's stockholder meeting held on May 13, 2014 that was previously mailed to the Company’s stockholders.
